

# evergreen time clock troll™

your employee time clock solution

## Track Time at Your Store

With **evergreen time clock troll**, your employees can clock in and out with ease, making payroll and time tracking effortless in your business. **evergreen time clock troll** is used by businesses, educational institutions, and other organizations nationwide to track their employees' times and report their hours. Its options for biometric fingerprint identification allow you to keep access secure while adding an extra layer of verification for your business.

**evergreen time clock troll** is utilized by companies in the private and public sector for its accurate keeping of employee hours. With detailed information on your employees' hours at your fingertips, you'll never have trouble with payroll maintenance again.

**Easy to Navigate.** **evergreen time clock troll** is simple in design but packed with features. This Windows-based program allows you to track your employees' hours and earnings easily without a complicated interface. Straightforward design puts options and control back in your hands.

**Easy to Identify.** Use our web cam feature to include snapshots of your employees for an added level of identification. To take security to the next level **evergreen time clock troll** seamlessly integrates with **identiFi Biometric®** to replace manually clocking in with fingerprint scanning. You can rest assured that you are limiting the potential for inaccurate or false records.

**Easy to Manage.** **evergreen time clock troll's** reporting options allow you to effortlessly monitor the hours and earnings of your employees— let **evergreen time clock troll** do the work for you! Use these reports to make real-time decisions and feel confident about the time your employees are putting in.

**Easy to Customize.** Use **evergreen time clock troll's** settings to get the most out of time tracking. Specify how **evergreen time clock troll** loads on start-up, manage stations, round punch times and set thresholds for overtime hours and pay.

**Easy to Buy.** **evergreen time clock troll** is priced competitively starting at \$97 for a standalone station. Pair it with a subscription to **ezaccess** for a gateway to support, software updates, and technology services. Visit [ezaccess.systemswest.com](http://ezaccess.systemswest.com) for details.
